Shackleton Says Macon Misunderstood His Statements-Danes Willing to Check Up Proofs.

SYRACUSE, N. Y., March 11 .- Matt Hensen, lecturing in this city on his trip to the north pole with Commander Robert E. Peary, last night expressed indignation at what he termed Peary's "shabby treatment" of him since their return to this country.

said. "After the hardships we went through together and the work I have done for him, not mentioning the number of times I actually saved his life, I think

he should do more than he has. "It is all on account of his selfishness. He wants everything for himself, and evidently begrudges me what little success I may be having with my lectures. "Commander Peary, for all the years

have known him, has been a selfish man, after his own glory and that of nobody else. Since he discovered the north pole I have had a chance to see that more plainly than ever before, and so have some others.

#### Got to Pole, However.

"Anybody who says we didn't reach the pole, however, does not know what he is talking about. I took 120 photographs of scenes connected with the exploration. These I turned over to Peary, at his request, August 6 or 7, in Greenland. 'The understanding was that he should make some selections from among them and pay me for what he took. He selected some and returned the rest, but he has ever paid me for what he took. "Along about the 15th or 16th of Oc-

### Peary's Proofs for England.

LONDON, March 11.-Commander Robert E. Peary, it is announced authoritatively here, is bringing proofs of his polar achievement with him, and will make them public at a meeting which he is to address at Albert Hall, under the auspices of the Royal Geographical So-

The explorer, whose good faith is generally accepted by British geographers, has the promise of a magnificent reception in London. Already, two months ahead of the date of his lecture, the applications for seats are sufficient to twice fill the great hall. Members of the royal family are expected to be present at both the lecture

#### and the banquet preceding it. Shackelton Defends Peary.

Lieut. Sir Ernest Shackleton, who last year penetrated the antarctic circle to within 111 miles of the south pole, this afternoon disclaimed the statement credited to him by Representative Robert B. Macon of Arkansas, before the subcommittee of the House naval committee March 9, with reference to the number of miles a day it was possible to travel over polar seas.

"I can see no reason," said Sir Ernest, "why Commander Peary, who had dogs with him, should not have done what he has claimed. The dogs, of course, must have done the pulling, for the men could not. On my journey from the south pole I covered on five consecutive days 20, 18, 22, 26 and 29 miles."

More proof that the Autonola is the standard of the world.

In an article discussing the development and conditions of the Player-Piano trade the Musical Courier Extra, the greatest piano trade authority in the world, makes the following statement: "It may not be known generally, but the largest number of player mechanisms that were manufactured in the United

States in 1008 were mantifactured by the Autonola Company, which is turning out more per month now than any other concern in the United States or in the world. The Autonola Company made about as many players last year as the Aeolian (Pianola) and the Angelus combined-that is to say, that at the present moment MORE AUTONOLA MECHANISMS ARE BEING PLACED IN PIANOS IN THIS COUNTRY THAN ANY OTHER OF THE PLAYER LINE.

THAT IS WHY THIRTY-EIGHT OF THE BEST KNOWN PIANO MAKERS OF AMERICA buy this Autonola Action, and after installing it in their own piano, sell it under their own names and guarantees. They wouldn't buy the Autonola player if there was a better one, WOULD THEY? They wouldn't dare put their own names on it if the Autonola was not an absolutely dependable, artistic player, WOULD THEY?

OUR AUTONOLA CLUB is almost completed, so if you are interested we would advise that you call immediately and examine the instruments, for it will be our only opportunity to offer you such an unusual price on so fine an article. Our demonstration of the merits of the Autonola, both as a piano and player, will exceed your utmost expectations.

YOU CAN HAVE GOOD MUSIC EVERY DAY IN THE YEAR IF YOU JOIN OUR AUTONOLA CLUB. \$15.00 paid to us today will secure the immediate delivery of the very latest model genuine AUTONOLA to your home, together with all the outfit special privileges given to, OUR CLUB MEMBERS.
